HPS Loadbanks Announces New Resistive Loadbank *All-in-One 700 KW Resistive Loadbank Package Now Available*

San Diego, CA (April 24, 2014) – HPS Loadbanks (HPS), the leading distributor of Crestchic® Loadbanks in North America, announces its newest product, the All-in-One Loadbank Package featuring the HPS 700 KW Resistive Loadbank. Manufactured for HPS Loadbanks by Crestchic UK, the 700 KW Resistive Loadbank is a compact, dual voltage unit that is built on a dual-axle trailer and can be pulled by a standard pickup truck.

Kirk Fowkes, HPS Director of Sales & Marketing says, “The expanded line of 700KW resistive load banks are ideally suited for product support, service and rental departments. Our on-the-go customers can choose individual units built on castors or our load bank plus trailer package for easy transport. Each 700 KW load bank is designed for efficient, reliable testing each and every time.”

Brian Cleary, General Manager of HPS continues “The new HPS 700 KW All-In-One Loadbank Package is yet another example of why we back every new HPS load bank with our industry leading new product warranty. Every new 700 KW Resistive Loadbank is covered by a one year warranty including parts and labor.”

Detailed product specifications for the 700KW Resistive Loadbank are available at www.hpsloadbanks.com.
