### **HPS Loadbanks Expands Loadbank Rental Program**

*The Best Choice for Crestchic Loadbank Rentals*

**San Diego, CA** (August 12, 2014) – HPS Loadbanks (HPS), the leading distributor of Crestchic® Loadbanks in North America, announces the expansion of their load bank rental program to include more options for rental customers.

HPS Loadbanks offers a great selection of Crestchic resistive, resistive/reactive and portable resistive load banks to fit all rental needs. Additionally, the lightweight, compact dual voltage Cannon 100KW Resistive Loadbank is ultra portable for easy transport in a roller suitcase.

Kirk Fowkes, HPS Director of Sales and Marketing says, “Renting from HPS Loadbanks has never been easier. Best of all, you can choose how you want to rent with us.” Fowkes continues, “You can choose operator-free rental, where your technical experts operate the rental load bank. Or you can leave it to us and one of our certified technicians will run the loadbank for you. You can even choose to have an HPS Loadbanks certified technician train your staff on-site. The choice is yours.”

HPS Loadbanks offers the best selection of load banks available. As always, load banks from HPS Loadbanks are 100% guaranteed in all weather conditions. HPS Loadbanks helps ensure customers stay within budget by only charging customers for the voltage used, not the capacity of the machine.

Fowkes adds, “For special discounts, rewards, and premier services, our rental customers can join the FREE RentalRewards Program and start enjoying rewards immediately. VIP members receive priority access to our rental inventory.” Fowkes concludes, “HPS RentalsRewards is your best choice for your next load bank rental.”

#### **About HPS Loadbanks**

Based in San Diego, CA, HPS Loadbanks is the leading authorized distributor of Crestchic loadbanks in North America and a recognized premier dealer of Vantran transformers. Whether you choose to buy or rent, HPS offers the best selection of new and used resistive loadbanks, resistive/reactive loadbanks, transformers, trailers and cables. Our load testing products and services include sales, rental, training, parts and service.
